REASONS FOR ALLOWANCE

1. Claims 1, 3-4, 7, 10, 48, and 50-51 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The aforementioned claims are allowable over the Cited Prior Art (CPA) of record, Kuroda et al. (U.S. Patent 6,707,774) in view of Chung et al. (U.S. Patent 6,621,933), because the CPA does not teach or render obvious the limitations in independent claims 1 and 48, and the subsequent dependent claims.
4. The CPA teaches decoding data from a recording medium, embedding watermark information into data, and preventing watermark information from being embedded in data. However, the CPA prevents the watermarking information from being embedded in the data by removing watermark information which is present in the data.
5. In contrast, the present invention teaches reading the data from a medium in response to a playback or a recording command, wherein the data does not contain watermark information, and based on the command either embedding medium specific watermark information in the data (if it is a recording command) or outputting the data without watermark information (if it is a playback command). The CPA does not teach this method or the apparatus, which performs this method.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
